

Video Wall Processor | RealView PRO Series

Best Advanced Technology Video Wall Processor

Support embedded Digital-Analog Audio | Drag and Drop Easy Operation | Real Time Controlled through iPad | Durable

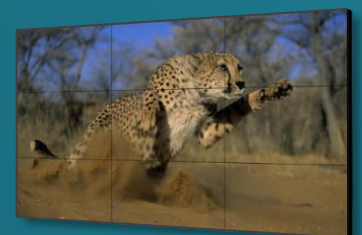

Based on the cutting edge FPGA processing technology which provides a solution to be able to accept any combination of input sources via LAN/Network, and direct input : HDMI, DV-I. Supports 4K 60Hz input capture resolution to deliver an uncompromised 4K-UHD picture experience. Supports embedded professional Audio (Digital & Analog). RealView PRO is a professional advanced technology video wall processor

Real-time live preview controlled via iPad to select content sources, move, resize or even can save and recall layouts, simple drag-drop operation, no mess up, easy to use and easy to teach. ImagePath™ RealView video wall management available on App Store

Provides excellent performance compatibility with all video wall displays (LCD Wall and LED Wall) and is very flexible in visualizing any content from any sources to multiple screens or entire screen of video wall display, ensuring hassle-free 24/7 operational capability

ImagePath™ RealView PRO Series video wall management features :

- Multi View and control video wall management
- Supports digital and analog audio
- Advanced PCI Express technology
- Advanced Crossbar technology
- Supports KVM
- Supports over 1000 pre-set layouts
- Position, re-size, crop and overlapped input windows
- Supports OSD on output windows
- Input signal live preview
- Supports system live monitoring
- User authority management
- Supports customised EDID on inputs and outputs
- Supports 4K IP streaming decoding
- Multi video walls control
- Robust FPGA video data process technology

SPECIFICATION

Controller Chassis	19" ANST/EIA RS-310C, standard industrial chassis
Display Outputs	up to 320 display outputs
Multi Output option	HDMI, DVI (Digital & Analog), VGA, HDBaseT, Optical Fiber (all with embedded audio)
Inputs Capture	up to 320 inputs
Multi Input option	DVI-D, HDMI, DisplayPort, VGA, SDI, SD, HDBaseT, IP, Optical Fiber (all with embedded audio)
Input Capture Resolution	Support up to 4K-UHD@60HZ
Output Capture Resolution	Support up to 4K-UHD@60HZ
Multi Video Walls	Support in one system
Control Operation System	Windows OS, iPad OS
Fast Start up	Within 5 seconds, Low capture & display latency
HDCP Support	Yes
Control Interface	RS232 or 10/100/1000M Ethernet Port
IP Streaming Decoding	Support 4K IP Streaming Decoding
Low Power Consumption	230 W
Input Voltage	AC 110V to 240V, 50/60Hz
Power Supply	Single or RPSU*

* optional

ImagePath™ RealView PRO is the best advanced solution supporting digital and analog audio. Based on cutting edge PCI express technology to provide high bandwidth for real-time processing of all input signals and better system performance. Higher redundant power supply due to design and functionality for durability. Suitable for uses such as Modern Control room, Modern Command Center room, Modern NOC room, Modern CCTV room, Modern Meeting room, and Digital Signage.

**FAST
START UP**

ImagePath™ RealView PRO a real way to view, control & durability designed for modern video wall displays
