The Best MultiPurpose LED Display

960mm x 960mm One Standard Cabinet Design | Superior Color | Finest Visual Experience

Perfect for cutting-edge technology multipurpose display demands including broadcast, enterprise, hospital, retail, rental, public area and education

Superior colors to represent true colors, with high brightness, wider viewing angle and good image sharpness so that each viewing angle is visually optimal

Smaller pixel pitch allows for crisper and higher resolution images. Pixel pitch on ClearView LED modules ranges from 1.2 mm to 4.0 mm

High refresh rate increased to ≥ 3840 Hz

Less energy consumption which greatly reduces usage costs

Lower screen temperature reduce screen heat and increase stability in daily use

High protection back cover design enhances durability

One standard cabinet design applicable to different pixel pitch modules, excellent compatibility

ImagePath™ ClearView LED is perfect for cutting-edge technology multipurpose display demands with a smaller pixel pitch allows for crisper and higher resolution images. Superior colors with high brightness but less energy consumption and lower screen temperature which makes ClearView LED more stable and durable in daily use. ClearView LED is designed for applicable to different pixel pitch modules with excellent compatibility
